Tower Hi-Line

Tower Hi-Line e' un sistema libreria con struttura in profili di alluminio.

Il sistema è stato progettato per avere un doppio utilizzo con fissaggio da pavimento a soffitto o a parete con piega superiore a 45°. Esiste inoltre un sistema di bloccaggio per consentire differenti tipi d'installazione su varie superfici.

Tower Hi-Line is a bookcase system with aluminum profile structure.

The system has been designed to have a double use: floor to ceiling or wall fixing, with a bend greater than 45°. There is also a locking system to allow different types of installation on various surfaces.

Tower Hi-Line a parete
è disponibile anche
con luce

The wall-leaning
Tower Hi-Line is also
available **with light.**

con luce with light

senza luce without light

Tower Hi-Line

con fissaggio a soffitto,
è disponibile in due
versioni:

- a parete
- ad isola

Tower Hi-Line

with ceiling fixing is
available in two versions:

- Wall-leaning
- Island

La flessibilità di **Tower Hi-Line** consente l'utilizzo del sistema in tutte le zone della casa a partire dalla cucina per passare alla zona soggiorno, alla zona notte ed al bagno.

Tramite l'utilizzo di due tipologie differenti di sistemi di aggancio, gli accessori che compongono **Tower Hi-Line** possono essere **mensole** in lamiera di **alluminio** lavorate di piega o mensole con profilo in alluminio e ripiano in vetro.

Tower Hi-Line si presta anche all'utilizzo di mensole o di accessori in **legno** tramite l'utilizzo dei sistemi di aggancio che possono essere venduti separatamente per dare una maggiore libertà di customizzazione al cliente.

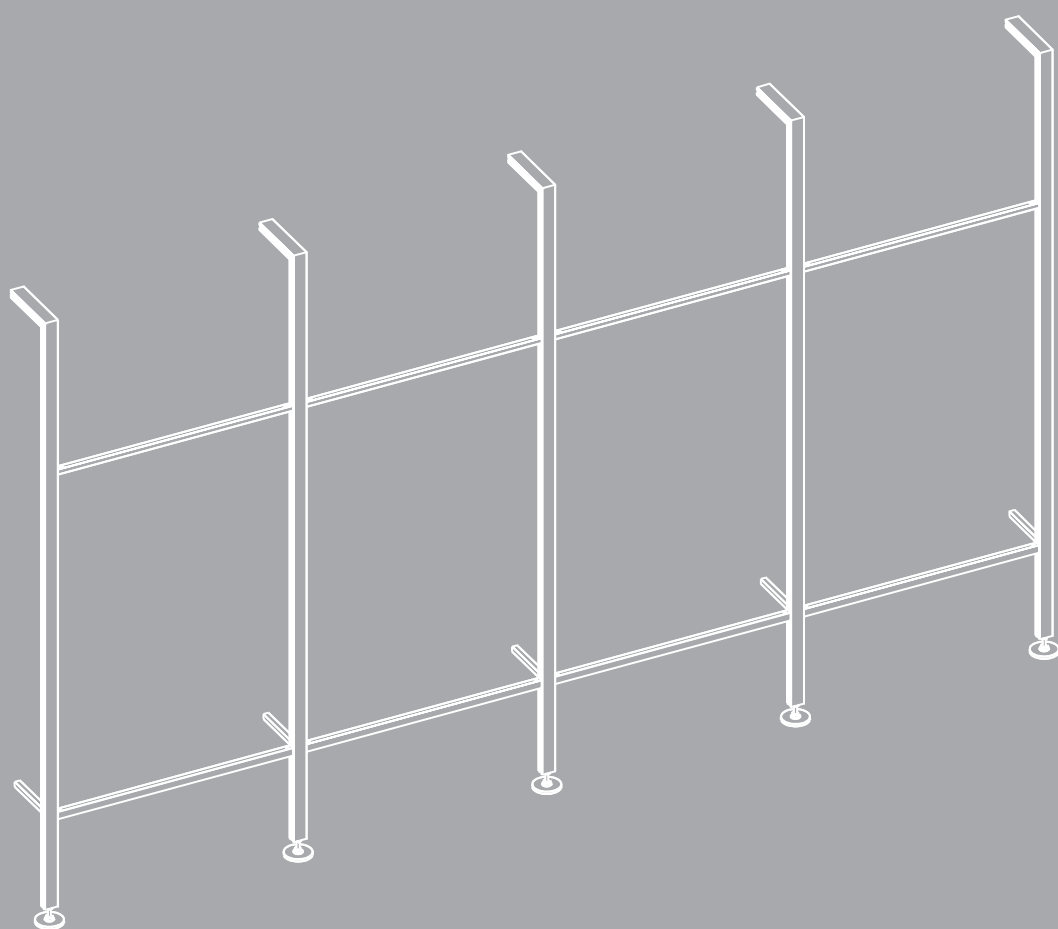

The flexibility of **Tower Hi-Line** allows the use of the system in all areas of the house, from the kitchen to the living zone and the sleeping zone.

With two different types of systems for the hanging, the accessories that make up **Tower Hi-Line** can be folded **aluminum sheet shelves** or shelves with aluminum profile and glass shelf.

Tower Hi-Line is also suitable for the use of shelves or wooden accessories via the use of coupling systems, which can be sold separately, for offering to customer a greater possibility of customization.
